On 5 December, at the same location, a workshop will be held, organised by TTS Italia in collaboration with the IRF-**International Road Federation**, member of the European ITS Advisory Group. The meeting aims to present the results of ITS Policy Committee, of which TTS Italia is part. The Workshop will be free of charge and open to anyone interested.

2012, and to reflect on the related implications and opportunities for the entire field

of ITS. Also for the second edition, the conference and exhibition format will give the widest possible space to all fields of application of ITS systems for the management of mobility and logistics, electronic ticketing and technologies applied to TPL.
